Viewing the Grahway Australian States

by John F. Dunn

On October 23 Daniel F. Kelleher Auctions conducted the sale of the The Grahway Collection of Australia and States and New Zealand and Dependencies. In this viewing we will focus on the Australia States sections, keeping comments to a minimum in order to fit in as wide a representation of lots as possible.

The auction opened with New South Wales, one of the first lots being this 1850 Sydney View 1d dull carmine, plate I re-engraved, bluish paper (Sc. 2c) unused without gum, and with large margins, but two pressed creases. With an SCV of \$5,000, a Gibbons (#11) value of \$10,080 (converted from £), and a pre-sale estimate of \$3,000-4,000, it realized \$4,720. (All prices do not include the 18% Buyer's Premium that is added on to these hammer prices.)

To show the differences resulting from these long printings and the plate wear, to the left we show an 1850 Sydney View 2d grayish blue plate I intermediate impression (Sc. 3d, \$8,000), estimate

\$1,000-1,500, hammer \$1,534; and to the right an 1850 Sydney View 2d dull blue plate II worn impression (Sc. 5; \$1,65), estimate \$150-200, hammer \$130.

New South Wales Queen Victoria issues include, left, an 1854 Queen Victoria 2d Prussian blue watermarked "2" unused without gum (Sc. 24b; \$400), estimate \$250-

mer \$354; right, an 1864 QV 6d purple perf 13 (Sc. 40, \$325), estimate \$150-200, did not sell.

Next we view an 1865 QV 2d die proof in pale blue on glazed card (Sc. 46 var.), estimate \$400-600, hammer \$266; and overlapping that an 1886 Queen Victoria £1 "POSTAGE" perf 12 overprinted "SPECIMEN" (Sc. 72 var.) estimate \$400-600, hammer \$236.

Then, at the top of the next column is an 1885 Queen Victoria 5s "POSTAGE" perf 12 x 10, overprinted "REPRINT" top sheet margin block of 4 (Sc. 74 variety), o.g., never hinged, estimate \$400-600, hammer \$354.

Below is an eye-catching 1897 Queen Victoria Jubilee 1d die I, 2d & 2-1/2d die I compound die proof in deep ultramarine on thin glazed card (Sc. 98a/100a vars.); minor flaws, estimate \$400-600, hammer \$236.

And for a closer look, here's the 1897 QV 2-1/2d die I in dark blue proof on glazed card (Sc. 100a var.) reduced to 45x38mm, estimate \$200-300, which did not sell.

Completing the NSW section is an 1899 QV 2d cobalt blue imperforate pair watermark Large Crown and NSW (2mm spacing) (Sc. 103a), very lightly hinged o.g., SCV \$325, estimate \$300-400, went unsold;

and the 1890 Official overprint on the 1880 9d on 10d brown, this being the 1895 Special Printing (Sc. O39 var.) watermarked Small Crown & NSW canceled to order "N.S.W." in ovals, but the cancel was subsequently repainted. 1000 were prepared for collector sets, 900 of which were canceled "N.S.W." in ovals, but it is believed that only 158 were sold and that the rest were destroyed. With an estimate of \$400-600, it did not sell.
